

## the Advantage Series

**Doors for Areas where compliance with Federal Specs is not required**

**Featuring 2 Pane Non Heated Tempered Glass Packages**

*The Advantage Series doors are built with the same door and frame system as our ECO Series to maximize energy efficiency by providing better installation qualities.*

*All Advantage Series cooler doors are energy free. Designed with a flat mullion and field reversibility the FS Advantage Series Doors offers upscale styling and the flexibility and dependability you can count on. Our exclusive RLS Lighting distributes the light to the center of the shelf to bring out all the vibrant colors in your packages.*

*Add optional features like gravity flow shelving and full length handles to give you the look you want at a price you can't beat and a door that you can rely on for years of dependable service*

## Advantage Series Standard Features

The flat mullion design provides superior insulation against cold transfer, and a reduction in energy consumption for the Environmentally sensitive customer

The RLS lighting system with its unique design increases the amount of light at the center of the shelf. The T-8 lighting and electronic ballast bring to life the vibrant colors on all your packaged product

The unique design of the Kwik Torque\* makes adjusting tension a snap. Just 3 to 4 clicks and the door shuts and seals with ease.

The Kwik Level\* system is placed at the top of the door making it simple to sight down the line-up adjusting each door to the next Door leveling is simple and easy.

The triple seal gasket utilizes a magnetic beaded door gasket fitting into a recessed frame gasket to assure a positive air tight seal

The Advantage Series door plug, for heated door applications, is the smallest profile available. The unique plug design and the flat mullion allow this door to be easily reversed in the field.

**\*CDS products are covered by patent: 6,978,516**
